

# Climate Video & Discussion Night

Sunday, August 6, 2017, 6:30-8:00pm

## **How Do We Respond to Climate Change Given the Seriousness and Urgency of the Situation?**

### ***Our world continues to warm at an unprecedented rate.***

A recent study shows that the world must set greenhouse gas emissions on a downward path by 2020, or we risk not being able to contain temperature rise within safe limits of 1.5-2.0 degrees C, according to the Paris agreement.

Given the seriousness and urgency of our situation, discussion focuses on possible responses, both collectively & individually, both to resist & to build the new.

***Join us for 20 minutes of video followed by discussion ~ Free! Open to all!***

**Sunday, August 6, 2017, 6:30-8:00pm**

Oasis Café in Carr Mill Mall  
200 N. Greensboro St, first floor  
Carrboro, NC

Presented by Citizens Climate Collaborative:  
Betsey Downing, Marty Adams, Tana Hartman Thorn,  
Vic Rhodes, & Dirk Kelder
