Time to Choose

“By the middle of this century we will trigger runaway climate change,
a process beyond our control.

What do you do if you have that information? What do you do?”

Dr. Steven Chu,

Former US Energy Secretary And Nobel Prize Winner

After the film, we'll look from a broad perspective at what's necessary
to respond to our Climate Crisis in an effective way.

We'll discuss both collective and individual actions, both to resist and to build
a new culture that honors the Earth and all it's inhabitants.

Join us for the film (1.5 hours) followed by discussion ~ Free! Open to all!
