

# CLIMATE DESTABILIZATION: OUR LONG SLOW EMERGENCY

Sunday, March 25, 2018, 6:30-8:00pm

## PRACTICES & ACTIONS TO CREATE RESILIENCE

4th Sunday of each month

### OUR LOCAL FOOD SYSTEM

In our March 25 session we focus on a major aspect of our resilience, both personally and collectively: a healthy, sustainable, and accessible food system.

We have 2 short presentations on this topic:

Ashley Heger will speak about the work of the Orange County Food Council whose goal is to grow a local food system that ensures health, sustainable agriculture, and access for all.

Grace Baucom is a high school senior in Orange County who has worked with the Climate Leadership and Energy Awareness Program at UNC.

Her 10-minute documentary explores how extreme heat, one of the many byproducts of climate change, affects sustainable farmers in the NC Piedmont.
