

# CLIMATE DESTABILIZATION: OUR LONG SLOW EMERGENCY

Sunday, April 8, 2018, 6:30-8:30pm

## **PLASTIC IS THE NEW SEA MONSTER!**

Eight million tons of plastic wind up in the world's oceans every year! Unlike other trash, plastic can stay in the water forever because it does not biodegrade. Find out how it gets there and how it's affecting the world's oceans and humans. We'll look at efforts already underway to rid our oceans of plastic pollution and what we can do to participate in the solutions.

Join us for an hour video presentation, followed by discussion.

**~ Free! Open to all! ~**

**Sunday, April 8, 2018, 6:30-8:30pm**

Oasis Café in Carr Mill Mall  
200 N. Greensboro St, first floor  
Carrboro, NC

If you are unable to join us in person, consider inviting a few friends over and watching together!
