

CLIMATE DESTABILIZATION: OUR LONG EMERGENCY
Sunday, September 22, 2019, 6:30-8:00pm
Clean Energy in North Carolina
With Nancy LaPlaca, J.D.

If clean energy is so cheap, why don't we have more?
What are the policies in other states that are moving local, distributed
clean energy so much faster than in NC?
Nancy will discuss the state of clean energy in NC and
the reasons why we don't know the full story about the benefits of solar.

Nancy LaPlaca, J.D., has decades of experience in public policy, specializing in electric/gas utility issues. She spent 10 years as a public interest intervener at state level public utilities commissions in AZ, CO and NC. Her policy work includes topics of renewable energy standards, solar, wind, net metering, rate design, integrated resource planning, energy efficiency, natural gas markets, shale (fracked) gas production, pipelines and methane leakage, carbon sequestration, climate change, and many more.

Join us for an enlightening presentation, followed by Q & A.
~ Free! Open to all! ~ No experience needed ~

Sunday, September 22, 2019, 6:30-8:00pm

Oasis Café in Carr Mill Mall

200 N. Greensboro St, first floor
Carrboro, NC

Sponsored by the Citizens Climate Collaborative:
Betsey Downing, Tana Hartman Thorn, Dirk Kelder & Jim Sander
