

Climate Video & Discussion Night
Sunday, September 17, 2017, 6:30-8:00pm

Hurricanes, Floods, Fires & Earthquakes!!

*“If we don’t change our direction,
we are likely to end up where we are headed”.*

Chinese Proverb

Despite what some say, **THIS IS THE BEST TIME** to talk about climate change.
We know that increased warming intensifies storms of all kinds.
It's time to face that hard reality.

Join us for a discussion of the significance of the recent slew of hurricanes, floods, fires, and earthquakes, and actions to take.

*We’ll start with a 10-minute video by Al Gore giving us
an overview of the climate situation followed by discussion.*

~ Free! Open to all! ~
