

# CLIMATE DESTABILIZATION: OUR LONG SLOW EMERGENCY

Sunday, July 8, 2018, 6:30-8:30pm

## **CRISIS OF CIVILIZATION: A Documentary About Global Crises**

Based on the book by Nafeez Mosaddeq Ahmed; Dr. Ahmed is a bestselling author, investigative journalist, international security scholar, policy expert, strategy & communications consultant, and change activist.

The various crises we face today, from climate change to the economy, are not separate, distinct crises, but rather facets of a wider crisis of industrial civilization in its current form, linked to our dependence on fossil fuels. Whether we regard that reality optimistically or pessimistically, this century signals the end of the age of fossil fuels.

However, Dr. Ahmed points out that we are not all doomed! In fact, far from it, he says. While the film shows that business-as-usual is not sustainable, he points out that we are already in the midst of a global process of transition that offers unprecedented opportunities to re-envision new forms of prosperity that can function in harmony with our environment, rather than in conflict with it.

Join us for a powerful and enlightening documentary. Followed by discussion.

**~ Free! Open to all! ~**

**Sunday, July 8, 2018, 6:30-8:30pm**

Oasis Café in Carr Mill Mall  
200 N. Greensboro St, first floor  
Carrboro, NC
