

# CLIMATE DESTABILIZATION: OUR LONG EMERGENCY

Sunday, March 10, 2019, 6:30-8:30pm

## **GROWTHBUSTERS: Hooked on Growth**

"This documentary film asks the most critical question of our time:  
How do we become a sustainable civilization?"

It takes a unique approach among modern environmental documentaries:

Rather than dispensing facts about climate change; peak energy, food and water; and biodiversity loss, it examines the cultural barriers that prevent us from acting rationally.

It asks why population conversations are so difficult to have, and why a roaring economy is more important to us than a survivable planet. It explores our obsession with community growth and economic growth."

Join us for a humorous film about a serious topic, followed by discussion.
