

CLIMATE DESTABILIZATION: OUR LONG EMERGENCY

Sunday, August 11, 2019, 6:30-8:00pm

CLIMATE CRISIS COMMUNICATION

With Dr. Tom Hoban

Climate destabilization is the most serious problem of our time! Research shows that one of the best things we can do for the climate is to talk about it. However, most people don't know how to have that conversation.

Our speaker, Dr. Tom Hoban, has been conducting research and education about the environment for over 40 years. He will teach us how to communicate about the climate crisis more effectively.

Dr. Tom Hoban was a professor at NC State for 25 years where he worked on environmental problems. He is currently the Executive Director of the Cape Fear River Assembly and teaches a course on Climate Change Communication at Elon University.

Join us for a power point presentation, followed by discussion.
Free! Open to all! ~

Sunday, August 11, 2019, 6:30-8:00pm

Oasis Café in Carr Mill Mall
