

CLIMATE DESTABILIZATION: OUR LONG EMERGENCY

Sunday, January 12, 6:30-8:30pm

WHAT IF ... ?

We were successful... what does that look like and how do we get there?

This 8-minute video takes us on a virtual trip to a parallel universe in which we make all the right decisions, address climate, and create a regenerative society.

We have only a short period of time available to bring about an epochal shift of human consciousness and civilization. If we continue business as usual, we doom our children to a desperate world that may soon be uninhabitable.

If we care about the future of human existence, as well as the continuity of life on Earth, we have a moral obligation – individually and collectively – and a “once in a civilization opportunity” to transform our culture rapidly, and institute a society in which all care for all.

Join us for this 8-minute mini-sequel to the award-winning film, “The Age of Stupid”. Followed by discussion and brainstorming how to do this!
