

# CLIMATE DESTABILIZATION: OUR LONG EMERGENCY

Sunday, February 9, 6:30-8:30pm

## BLIND SPOT

Every person on earth has lived in a world when oil production has been increasing. We have now moved into an era of declining oil extraction (production) and the world, especially the US, is not prepared for this transition.

The hard fact presented in this film is that **when, not if**, peak oil happens, "it will change virtually everything about how we live in the modern world."

The interesting twist to this documentary is that the psychological aspects of how we got here are also brought to light.

Understanding this, how can we best prepare ourselves, our family, and community?

Join us for the film, followed by discussion.

~ Free! Open to all! ~

**Sunday, February 9, 6:30-8:30pm**

Oasis Café in Carr Mill Mall  
200 N. Greensboro St, first floor  
Carrboro, NC

*If you are unable to attend, consider inviting friends over to watch this important film with you:*
