

CLIMATE DESTABILIZATION: OUR LONG EMERGENCY

Wednesday, August 5, 7:00-9:00pm

MOSSVILLE: THE FALL OF GREAT TREES

A powerful portrait of the human cost of environmental devastation.

As a centuries-old black community in Louisiana, contaminated and uprooted by petrochemical plants, comes to terms with the loss of its ancestral home, one man standing in the way of a plant's expansion refuses to give up.

This film exposes the links between race and environmental injustice, not just in the U.S. but across the globe.

Join us on Zoom for an informative 55-minute film, followed by discussion.
